

6 Steps to Streamline Your Practice Workflow

OPTIMISING EVERY STAGE WITH SILICON PRACTICE'S DIGITAL SOLUTIONS

01 New Patient Registration

Simplify registration with an online patient form. Registering with your practice has never been easier.

02 Managing Patient Requests

Stay organised with our real-time dashboard. Digital triage and secure messaging streamline patient requests.

03 Consultation and Diagnosis

Leverage virtual consultations and online patient forms to elevate your patient interactions.

04 Prescription Management

No more in-person visits. Patients request repeat prescriptions online, and clinicians or other practice staff can approve with one click.

05 Patient Communication

Stay calm and communicate securely with patients. Share files and educational materials seamlessly.

06 Regulatory Compliance

We ensure NHS data protection regulations are met, safeguarding patient data. Your compliance, our priority.
